What's special about Jena?

Just five reasons out of hundreds...

Jena is known as a students' paradise and a science city.

A fifth of Jena's inhabitants are students (around 22,000 of 108,000).

Around 18 percent of Jena's students have an international background.

There is no other place, where you will find this kind of metropolitan flair combined with a small town living appeal.

In Jena, you are always within a stone's throw of a gorgeous place to rest, to chat or to walk.

Why studying at the EAH Jena?

Need a few reasons? Here you are!

International atmosphere – 20 percent of our students come from abroad already

State-of-the-art laboratories – even high-tech companies use our labs for their measurements

Practical approach – lab internships are an integral part of our curricula

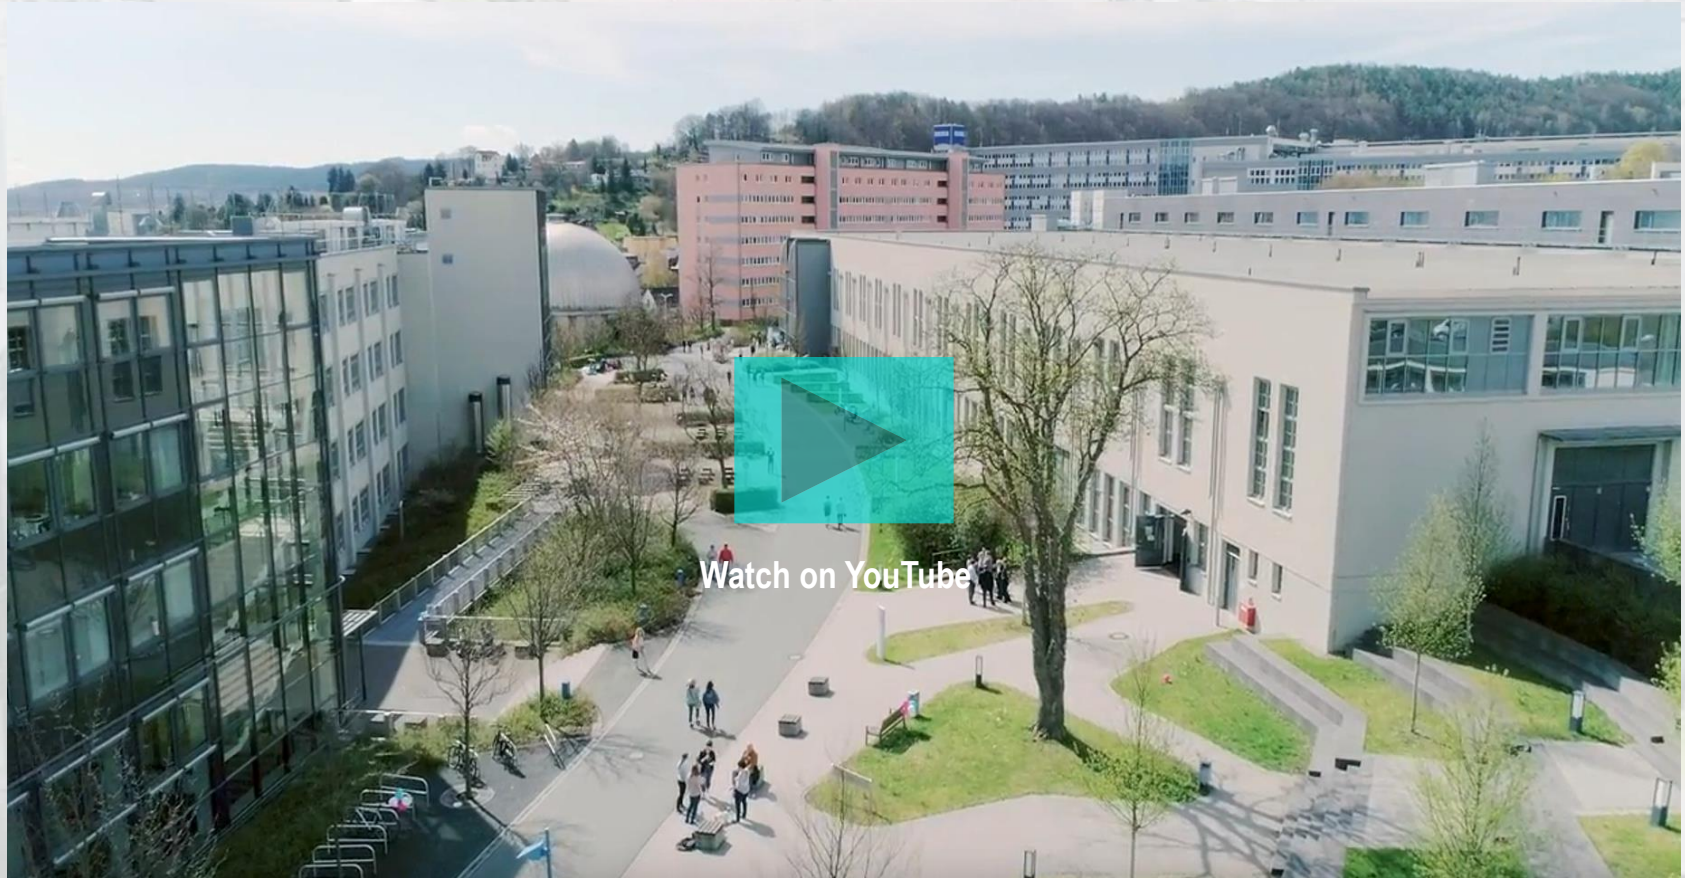

High competence in industry – all professors have working experience in their industry

Excellent support by professors and staff – small groups, very good staff-student ratio

Welcome to Paradise

Before choosing classes

Ernst-Abbe-Hochschule Jena
University of Applied Sciences

Just a few remarks on the specifics of the University's class schedule.

Availability of classes

Please consider the difference between available classes in winter and summer semesters:

Winter semesters (Oct – Mar)

Classes of the 1st, 3rd, 5th and 7th semester are offered

Summer semesters (Apr – Sep)

Classes of the 2nd, 4th and 6th semester are offered

Exception: Industrial Engineering (this course starts twice a year and hence all classes are offered each semester)

Possible conflicts in the class schedule

The class schedule is usually available at the beginning of the new semester. So, it is impossible to say in advance if chosen classes will overlap each other before the class schedule is published.

Although you are allowed to choose classes of different degree courses and semesters, consider that doing so might lead to conflicts in your class schedule. Hence, we recommend choosing classes of the same degree course and semester.

In some cases, it will be necessary to adjust your Learning Agreement after the class schedule has been published. In such cases, we will provide you with the necessary information.

Undergraduate study programmes

That is a selection of possible courses for exchange students. Please click on the ↗ icons for further information on the courses. An overview of all offered courses can be found at: www.eah-jena.de/studium

Course of study	Specialisation (if any)	Language of instruction
Biotechnology (B.Eng.) ↗		German
Business Administration (B.A.) ↗		German
e-Commerce (B.Sc.) ↗		German
Environmental Engineering & Development (B.Sc.) ↗		German & English
Electrical Engineering / Information Technology (B.Eng.) ↗	Automation Engineering ↗ Communication and Media Technology ↗ Computer Engineering ↗	German
Industrial Engineering (B.Sc.)	Digital Economy ↗ Energy and Environment ↗ Production ↗	German
Materials Engineering (B.Eng.) ↗		German
Mechatronics (B.Eng.) ↗		German
Mechanical Engineering (B.Eng.) ↗		German
Medical Engineering (B.Eng.) ↗		German

Graduate study programmes

That is a selection of possible courses for exchange students. Please click on the  icons for further information on the courses. An overview of all offered courses can be found at: www.eah-jena.de/studium

Course of study	Language of instruction
General Management (M.A.) 	German
Industrial Engineering (M.Sc.) 	German & English
Medical Engineering (M.Sc.) 	German
Pharmaceutical Engineering (M.Sc.) 	German
Scientific Instrumentation (M.Sc.) 	English
Electrical Engineering/Information Technology (M.Eng.) 	German

Procedure for exchange students

www.eah-jena.de/exchange

Tutor programme

Our tutors help international students to take the first steps in Jena and at the university. The tutors pick up the new students at the train station in Jena, they accompany them to the appointments with the authorities, assist with the enrolment at the EAH Jena and help with general questions. The service is free of charge.

Excursions

In every semester, the International Office organises an excursion for international students who are interested in visiting places in Germany. For these excursions, students will only pay a small participation contribution. Besides the visit of cultural-historical places, industrial and enterprise excursions are regular parts of the programme.

Intensive German language course & cultural programme

Prior to the beginning of every winter semester, a 2-week intensive German language course with cultural programme for the new exchange students is offered by the International Office. The course includes 25 teaching units of different levels and is accompanied by a cultural programme in which the students get acquainted with Jena and each other.

Service for students

by our partner, Studierendenwerk Thuringia

www.stw-thueringen.de/english

Living

- 28 residential homes for students with around 3,500 furnished rooms
- rents from EUR 140 to 330 per month (incl. utilities)
