Staff Members
Chalmers
Two campuses in the centre of Gothenburg. Science Parks and a Space Observatory. Creative environments for study and research that include startups and companies.

Connection
Between education, research and industry. Group projects dealing with hands-on real-life problems
Studies
Independent thinking. Preparing for future challenges through engineering methods. Entrepreneurship and sustainability are essential parts in the learning process.

World-Class Education
Full-scale technical university. All education is based on research. Challenge-driven education and digital learning. We educate engineers, architects and master mariners.
Courses, course plans, aims and learning outcomes are presented in the Student Portal [https://student.portal.chalmers.se/en/chalmersstudies/courseinformation/Pages/SearchCourse.aspx](https://student.portal.chalmers.se/en/chalmersstudies/courseinformation/Pages/SearchCourse.aspx)

Choose **Study period**:
1 (first quarter) and 2 (second quarter) for fall semester courses
3 (third quarter) and 4 (fourth quarter) for spring semester courses

Choose **Education cycle**:
- First-cycle for BSc level courses
- Second-cycle for MSc level courses

Choose **Teaching language**:
- English
- Grade (Year) 3 for 3rd year Bachelor's
- Grade (Year) 1 for 1st year Master's

Tick box **Open for exchange students**

Click **Search** and a list of courses will appear
Gothenburg, Sweden

- Second largest city in Sweden
- \( \pm 1,000,000 \) inhabitants in 2020 (313 m\(^2\) green space/person)
- Big city and small town in one unity
- Abundance of nature and open spaces
- Compact and connected by reliable diverse transportation system
- Bikelanes all over the city, archipelago and surrounding areas
- Close to the Sweden West Archipelago
- International and lively culture
Beautiful west coast of Sweden
Why Chalmers for your exchange?

- International students rate the Chalmers educational experience as the best in Europe*
- Chalmers offers more than 600 courses in English for exchange students
- Close collaboration with the industry – E.g., integrated industrial projects
- Chalmers is situated in the heart of Scandinavia, Gothenburg, only three hours by train to Stockholm, Oslo and Copenhagen
- A benchmarking report from MIT ranks Chalmers’ education top ten in the world of engineering educations.

*Results from the International Student Barometer 2019
Exchange studies

I had an amazing time studying at Chalmers! I really enjoyed it and learnt a lot during the programme. I made many new friends, increased my knowledge and experience, and really gained new perspectives on the world. And I got to discover how beautiful Gothenburg and Sweden are. I had such a great time, and I definitely plan to come back again someday for further study, to work or to travel.

MARIZAL FANANI was an exchange student at Chalmers from Gadjah Mada University in Indonesia, studying food science within the area of biotechnology for 6 months. He hugely enjoyed his time at Chalmers and in Sweden.

TIMELINE

1 APR Application period for the first semester
1 MAY Application period for the second semester
1 OCT
1 NOV

Unfortunately, no late applications can be considered
