

## UTC INTERNATIONAL\_MOBILITY PROGRAMS INFORMATION

We would like to inform you about the new offers we have developed especially for our international English speaking students!

### • English courses

We have enlarged considerably the offer of courses taught in English.

Please take a look at the link [here](#) to discover the courses and useful information for international students. You can also find out more about our new engineering programs under the following links:

[Courses in english Mechanical engineering](#)

[Courses in english Computer sciences and engineering](#)

[Courses in english Bio-engineering](#)

[Courses in english Urban engineering](#)

### • Mentoring program

This is an academic exchange semester where students validate courses by learning in a one to one relationship with world-wide known researchers at UTC. The students will integrate a research laboratory for the full semester and will be closely mentored by one or two researchers. The aim for the students is to validate a certain set of knowledge and skills.

You can find out more about mentoring programmes offered under the following links : [Artificial intelligence and decision support system for the smart building and the smart city](#), [Biomechanical approaches and tissue engineering](#), [Biomimetic approaches for biomedical applications](#), [Dynamics of dislocation densities](#), [Electromobility](#), [End-to-end Machine Learning project](#), [Mass customization and product variety management](#), [Microrobotics and micromechatronics](#), [Multiscale study of the impact of a molecule, salicylic acid on plant metabolism](#), [Study of molecules with diagnostic applications](#), [Systems lifecycle engineering and management](#), [Wireless sensing and supply](#)

### • Short term study program

We are launching our International Summer school “ **Virtual reality for digital art creation**” from **June 26<sup>th</sup> to July 9<sup>th</sup>, 2023**. Please find the description [here](#) !

If you wish to find out more about this short term program, please watch [this video](#). The application website will be available soon!

We would be delighted to welcome your students in the framework of these new programs. Please note that we take care of booking accommodation for our international students with the CROUS (national student housing agency) and organize special events for them (e.g. end of year and new year parties).

Here is a short [video presentation of UTC](#), do not hesitate to share it with your students !
